Instructions For the Online Aptitude Examination

- When time approaches your selected examination time, Examination will automatic start and it will automatically redirect your home page to the examination page.
- Keep an eye on the clock. There is one timer which is showing you the remaining time period.
- Check your work before you submit it. Ensure that every answer is complete and appears as you intended.
- If you really want to check your knowledge then be honest to yourself while giving an examination.
- There is negative marking on incorrect answer and no any negative marking on non attempted question.
